

Quick Quiz

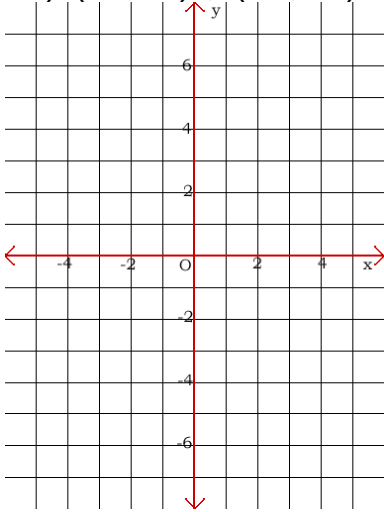

Name \_\_\_\_\_

Midpoint

Class \_\_\_\_\_

Instructions: Plot the points on the graph provided. Estimate with an ordered pair what the midpoint could be. In the large space to the right of the graph, use the midpoint formula to calculate the midpoint. Box the answer.

1.)  $(1, 6)$ ,  $(-2, -3)$  (\_\_\_\_, \_\_\_\_)

2.)  $(-2.5, 4)$ ,  $(3, -3.8)$  (\_\_\_\_, \_\_\_\_)
